

**University of Toledo Renewable Energy Business Incubator Communication**

**Infrastructure** : **\$250,000** from the Small Business Administration for the final phase of this project will provide technology resources for the business incubator to host local organizations in net meetings, bidder conferences, and for educational, research, and investment sessions brought in through video conferencing.

Additionally, this will provide support to the organizations residing in the Clean and Alternative Energy Incubator, including the University Clean Energy Alliance of Ohio and the Wright Center for Photovoltaics and Commercialization by providing better communication opportunities with their partners around the state of Ohio.

The entity to receive funding for this project is: University of Toledo, 2801 W. Bancroft St, Toledo, Ohio 43606.

**Urban Agriculture Business Development New Agrarian Center Sandusky Ohio:**

**\$250,000** from the Small Business Administration Develop a stakeholder-driven process to connect healthy food access with micro-enterprise training. By highlighting models for individual entrepreneurship, economic network formation, and cooperative development, this program will highlight models for business development in small and emerging food production and processing capacity for urban agriculture and processing.

The entity to receive funding for this project is: New Agrarian Center, 44333 State Route 511 East, Oberlin, Ohio 44074.
